West Ashley High School

Charleston, SC
(2004–2007)

TRAITS

Procedural
Open-minded
Inquisitive
Perceptive
Analytical
Eager to Learn
Imaginative

PROJECTS

Market Direct -

A mobile friendly app where farmer's market vendors can upload items for sale, and customers can view/add them to a personal shopping list. Angular JS was used for the Front-End.

APPLIED -

A fully functional CRUD app that allows users to keep track of companies that they have applied to, and rate them accordingly

WORK EXPERIENCE

Jr. Front-End Developer / The Iron Yard

MAY 2016 – AUG 2016 / Charleston, SC

- Attended a full-time program that focused on Front-End Web/App Development.
- Utilized GitHub to collaborate with back-end students in creating full-stack applications.
- Learned how to research and teach myself how to resolve code related issues.

Technician / Coastal Burglar Alarm

AUG 2014 – MAY 2016 / North Charleston/Kiawah, SC

- Serviced various alarm systems throughout the Lowcountry.
- Interacted with customers during service, sales, and installation.
- Programmed/upgraded many different types of systems, both hard-wired and wireless.

Automotive Technician / Toyota of Charleston

MAR 2011 – AUG 2014 / Charleston, SC

- Progressed from an hourly lube-tech to a flat-rate technician.
- Remained patient and dedicated throughout large, often frustrating projects.
- Diagnosed issues based off of vague descriptions and used my judgement and experience to resolve them the first attempt.
